

Movie Night

HangMan

Movie Night

Movie Night is based on classic HangMan Game. It's an easy to use and entertaining Game App which users could play for an exhilarating source of passing their time.

Application will present you a movie name on screen which Player has to guess. If the player suggests a letter which is present in the movie name, the game application writes it in all its correct positions. If the suggested letter does not occur in the movie name, the game app draws one element of a hanged man stick figure as a tally mark.

If the Movie name is correct, the game is over and the player wins. Otherwise, game app chooses to penalize the guesser by adding an element to the hanging man diagram. On the other hand, if player makes enough incorrect guesses to allow the game engine to complete the diagram, the game is also over, this time with the player losing. However, the player can also win by guessing all the letters that appears in the movie name, thereby completing the movie name, before the hanging man diagram is completed.

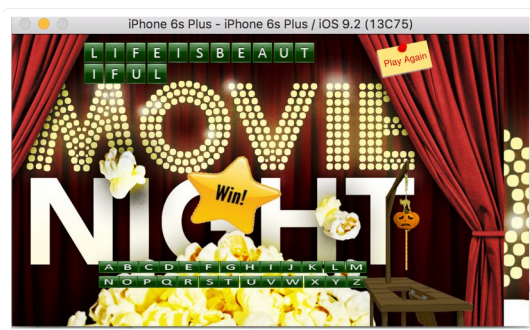

Let's Play

Touch up Inside the Click to play button to start the Game.

Play Screen

Play Screen contains the new movie puzzle which player has to guess which is displayed on the top most corner. Alphabets A-Z are displayed at the bottom for the player to select. There is a hang man stand at the bottom right corner. There is a Play Again Button for starting the new game at the top rightest corner.

Win

If the player selects the right movie name before the hanging man diagram is fully drawn, the player wins and a win message is displayed on the screen.

Game Over

If the player incorrectly chooses the letters and the hanging man diagram is fully drawn on the screen, the player loses the game and the game over. Player may choose to click on Play Again button to start a new game.
